

MOORE ACADEMIC INTEGRITY POLICY

Mission

Our Moore community will empower learners to take action and become knowledgeable, internationally minded, compassionate leaders who will promote a more peaceful world.

Philosophy

Our Moore community believes academic integrity is fostered through collaborative creation of schoolwide agreements and hopes and dreams with students, students, parents, and community stakeholders. Responsive Classroom practices and restorative circles reinforce our schoolwide academic integrity.

The learner profile is the basis for the development of academic integrity in our Moore community.

- Students are principled by following classroom and schoolwide agreements
- Students are open-minded when listening to other people's ideas
- Students are communicators by sharing their thinking
- Students are balanced by responsibly using technology and resources with integrity
- Our Moore community reflects on student learning and uses evidence to provide an academic environment where students can thrive.

Review of this policy will occur annually. Last updated October 2021.
